COMPANY BIO

3D Facilities Support is an established, successful, multi award winning company. RAC Contractor of the Year 2021 is amongst our many recent accreditations.

The Hospitality Industry is one of our specialist and long standing sectors. We proudly work past and present for brands such as Hilton, Hyatt, Ramada, Best Western, Marriott, Holiday Inn, Crowne Plaza and Travelodge together with singular independent hotels of all ratings and sizes nationwide. The Care Home sector is also rapidly becoming a prominent feature of our portfolio. Our wealth of expertise and experience allows us to engage with clients to deliver planned maintenance and support programmes that are bespoke to their needs and business priorities. We offer 24/7 365 engineering services and solutions for all your HVAC, mechanical, electrical and statutory compliance requirements to keep your hotel environment safe and compliant for the benefit of customers and staff alike. We are a scalable and adaptive business with directly employed fully qualified engineers and support staff.

3D has strong ethical and professional values that run throughout our skilled and dedicated staff, a passionate team focussed on strong customer support and service delivery of the highest quality. Our mobilisation and site attendance times are second to none. Whether it be for reactive service call outs, remedial repairs, planned preventative maintenance or turnkey solution projects, our testimonials consistently confirm that you are in good hands with 3D Facilities Support.

We continue: 'Engineering your Environment with a Reputation to Maintain'.

COMPANY BIO

Allegriⁿⁱ is a long-established Italian company with over 80 years of experience in the chemical industry, providing professional cleaning solutions and hospitality cosmetics since 1989.

Founded in Grassobbio (Bergamo) in 1945 and backed by the Metrika investment fund since 2020, Allegriⁿⁱ operates internationally through subsidiaries in Italy, Russia and the United States, with products distributed across Europe, the Middle East, South-East Asia and Canada.

With entirely Made-in-Italy production, Allegriⁿⁱ combines innovation, research and sustainability to develop professional solutions and bespoke projects that enhance customers' brand identity. The entire production process is managed in-house, from raw material selection and formulation to blending and filling, ensuring high quality standards and manufacturing flexibility.

For the hospitality sector, Allegriⁿⁱ offers a comprehensive portfolio of professional cleaning and hygiene solutions, supported by the Allegriⁿⁱ Method, an integrated approach covering the entire cleaning process. For over 35 years, Allegriⁿⁱ has also manufactured and distributed hotel amenities for the Italian and international markets, offering standard and luxury collections under its own brands, private label solutions and prestigious licensed brand partnerships.

PRODUCT RANGE AND SERVICES

Allegriⁿⁱ's product range includes professional cleaning solutions, alongside a comprehensive portfolio of cosmetics and hotel amenities such as shampoos, shower gels, conditioners, body lotions, liquid soaps, accessories and complementary products

The company offers standard and premium collections under its own brands, as well as private label and bespoke solutions. Thanks to its in-house R&D and production capabilities, Allegriⁿⁱ provides end-to-end services, from product concept and formulation to packaging, blending and filling.

Customised formulas, fragrances, packaging and formats can be developed to meet specific technical, commercial and branding requirements.

COMPANY BIO

Cimbali Group is a world leader in the design and production of professional espresso machines. The continuous search for innovative solutions, attention to detail and a particular focus in design, has allowed us to bring passion, tradition, design, quality and coffee culture into the world of the barista and coffee lover since 1912.

The story of Gruppo Cimbali started in Milan, Italy, and continues to be written four generations of family later.

We've since been recognized as an international leader in the sector and grown to count on two Italian operational branches in Rome and Milan, and seven outside of Italy in the USA, UK, France, Germany, Spain, Portugal, and China, along with two representative offices in Singapore and Dubai.

We can also rely on a distribution network that currently covers more than 100 countries and accounts for 700 distributors who share the passion and experience of Cimbali with the world.

Proving successful more than a century later, we continue to stay one step ahead of the market offering innovative, superior-quality products alongside outstanding service throughout our LaCimbali, Faema, Casadio, and Slayer brands.

Gruppo Cimbali remains the ideal partner for those looking for elegance, reliability, and high performance in the dynamic and exciting world of Italian espresso coffee.

PRODUCT RANGE AND SERVICES

The Cimbali Group offers a comprehensive range of products for the coffee industry, including both traditional and super-automatic espresso machines, grinders, and accessories. They cater to the HORECA (Hotels, Restaurants, and Catering) sector, providing solutions for a wide variety of coffee-related needs.

COMPANY BIO

Crown Outdoor help you make the most of your outdoor space with the creation of cost effective, beautiful, comfortable & functional year-round structures.

For well over 25 years, we have been the “go to” partner for our forward thinking HoReCa clients ranging from single site projects at under £2,000 to over £2,000,000 with nationwide roll outs and rebrands sometimes costing much more.

For every outdoor space there is a customised requirement unique to any other and absolutely no other company has the breadth and depth of experience we hold within the Crown team. This is what brings our customers dreams to reality. We do not regurgitate the “norm.” Every client is different and we listen and respond to their individual needs.

From a basic awning or parasol through to total tier one turnkey design and build, we have a solution which will bring each aspect of your outdoor space together. The correct heating and lighting, the most suitable roofing / shading system and furniture / landscaping that blends with the setting and the surrounding nature. We fuse together the character of the owner, the comfort of the clientele and the usage of the area. The objective is to convert every outdoor area entrusted to us into a new unique and welcoming space for everyday use matched with an unmistakable touch of style and innovation. Functionality, aesthetics, and quality are the very essence of our mission to create cost effective yet “without compromise” solutions.

We operate throughout the UK and Ireland (and sometimes beyond) with our own dedicated long-standing teams of strategically placed designers, project managers, engineers and fitting teams all managed from a central office located in the Southeast. Our factories are European based where the expertise is proven, tried, and fully tested. The raw materials usually come from our own factories in Türkiye where the quality is up there with the best and the labour costs are still fair.

This allows us to provide Bentleys for the cost of a BMWs and sometimes a lot less. The Crown journey has been 25 years in the making, and we would relish the opportunity to share our wealth of experience with you.

PRODUCT RANGE AND SERVICES

Our products include fixed and retractable glass roof systems, retractable fabric roof systems, bioclimatic rotating and retractable louvre blade systems, awnings, parasols, glass and glazing systems. Heat, Light, A/V, Comms, flooring, fitting. Landscaping and FF&E plus much more.

Tier One Design and build or working as a tier two or three supplier, we fit into any team and can provide as much or as little as is required.

Website

www.escarra.com

COMPANY BIO

While the Escarra brand was forged in 2020, our foundational story began in 2015. For years prior, we cultivated deep, trust-tested relationships with premier global manufacturers. When global travel paused in 2020, founder Isaac Braun recognized an opportunity to evolve. Knowing that the intrinsic human desire to travel, gather, and experience honest hospitality was building behind a dam that would soon break, he re-engineered the company into Escarra.

Backed by manufacturing partnerships forged over years of trust, Escarra utilized the quiet of the pandemic to build a modern hospitality producer from the ground up. Unburdened by outdated systems, we structured a supple, end-to-end supply chain designed to serve the modern hotelier in a new era.

Hospitality is one of humanity's oldest arts, built on principles of warmth, sanctuary, and detail. Reinventing the wheel was never the goal; optimizing it for the modern luxury landscape is Escarra's mission.

Escarra was not created to be another passive order taker. We disrupt this dynamic by operating as an active creative partner, bringing fresh, modern thinking to OS&E products, guest amenities, and custom-branded goods. By pairing trusted manufacturing longevity with contemporary design and sharp logistics, we turn routine touchpoints into lasting brand statements.

PRODUCT RANGE AND SERVICES

Escarra provides turnkey OS&E solutions for luxury hotels and resorts worldwide. Core capabilities include custom design via our New York creative team, direct-factory production, global logistics, and a Stock & Hold program securing annual volume pricing with on-demand warehousing. Our product range covers custom luxury robes, embroidered slippers, guest umbrellas, garment and laundry bags, in-room stationery, compendiums, and bespoke branded collateral.

Fexco is a globally recognised financial services and fintech group headquartered in Ireland, delivering innovative payments, foreign exchange, business solutions, and managed services to clients worldwide. With more than 43 years of experience operating in highly regulated and complex payment environments, Fexco processes billions in transaction value annually and supports many of the world's leading organisations across travel, financial services, retail, and other sectors, with operations spanning over 50 countries.

As part of Fexco's Financial Services division, payUnite is a next-generation payment orchestration platform designed to simplify, secure, and optimise the entire payments ecosystem. Through a single integration, payUnite unifies online, in-store, mobile, and alternative payment channels, enabling merchants and acquirers to maintain flexibility, reduce complexity, avoid vendor lock-in, and maximise payment performance.

Trusted by leading travel and hospitality brands worldwide, payUnite delivers intelligent payment routing, multi-currency processing, Dynamic Currency Conversion (DCC), tokenisation, fraud prevention, real-time reporting, and seamless omnichannel payment experiences. Built for scale and innovation, payUnite helps businesses increase payment acceptance rates, enhance customer payment choice, improve conversion, and accelerate growth in global markets.

PRODUCT RANGE AND SERVICES

payUnite is Fexco's payment orchestration platform, originally developed to meet the complex payment requirements of the global cruise industry. Operating at sea presents some of the most challenging payment environments in the world, requiring solutions that can handle intermittent connectivity, multi-currency transactions, international regulations, high transaction volumes, and seamless guest experiences across onboard and digital channels. Built and proven in this demanding sector, payUnite delivers the resilience, scalability, and reliability required by enterprise businesses operating across global markets.

Today, payUnite supports leading organisations across the cruise, hospitality, retail, and airline sectors, enabling merchants and acquirers to manage and optimise payments through a single integration. The platform provides intelligent payment orchestration, smart transaction routing, multi-currency processing, Dynamic Currency Conversion (DCC), alternative payment methods, tokenisation, fraud prevention, reconciliation, and real-time reporting. Leveraging technology refined in one of the world's most complex payment environments, payUnite helps businesses improve payment acceptance, reduce operational complexity, increase customer payment choice, and deliver seamless payment experiences across every channel.

Looking to boost hotel revenue? Gamemasters Escape Solutions transforms your property into a premier destination experience. Capitalize on the booming experiential hospitality market with our turnkey escape rooms, designed to drive new revenue streams, attract lucrative corporate groups, and significantly elevate guest satisfaction.

With a decade of success across North America and a new expansion into the European market, Gamemasters offers a proven, high-ROI business model. One Caribbean resort is currently generating \$60,000 USD in monthly revenue from just two escape rooms, effectively turning underutilized space into a powerful profit center. With a typical ROI of 6 to 8 months, our installations provide an immediate financial impact.

Escape rooms are the ultimate entertainment trend, offering guests a memorable activity during inclement weather (as an example) while successfully retaining F&B spend within your resort. Families love the bonding experience and corporate groups see escape rooms as the perfect teambuilding activity.

Let's discuss how we can turn your unused space into an engaging, revenue-generating asset.

We will be offering a 15% discount at the Hospitality Forum!

PRODUCT RANGE AND SERVICES

Gamemasters will reimagine unused space in your hotel or resort into an engaging escape room amenity. With 20 different adventures from which to choose - or we can custom design to your region historically or culturally. We ship custom designed room (s) to your resort and install them in a matter of weeks. We provide training and after sales consultation.

COMPANY BIO

HorecaPromo has been dealing with packaging and printing techniques since 1990. Since 2006 we have been focusing on manufacturing promotional products for the hospitality industry.

In the hospitality industry one of the most effective ways of marketing is self-branded packaging, which is not only decorative, but a useful tool for advertisement and information. Be it a huge restaurant chain or a small café, there are plenty of products available to be used as a marketing tool.

Hospitality nowadays is much more than gastronomy. We can enhance the feeling of comfort of our guests by customising simple consumer goods, which also carry our image.

Our team at HorecaPromo not only provides assistance in manufacturing, we also help you with the preparations: we can make the graphic designs for you, the way you want it.

We can make you the product you need – the exact way you want it

Eco-friendly solutions:

More and more customers demand eco-friendly packaging. In the meantime the European Union is pushing to get rid of plastic.

All our products are available from fully recycled paper, using the 'ECOLINE' name, for the same price

PRODUCT RANGE AND SERVICES

Customised toothpicks, personalised matches, toothpick flags. Producer, distributor.

The Challenge & Opportunity

Hotels are under increasing pressure to refresh and furnish spaces quickly, consistently, and cost-effectively, without compromising guest experience or brand identity. Inhabitr addresses this by streamlining the entire process through AI-powered design and end-to-end FF&E solutions.

Key Challenges

- High costs associated with delays during refurbishments or room turnover
- Conventional design processes often require extensive rework to meet budget constraints, increasing both costs and timelines
- Complexity in managing multiple suppliers and long lead times
- Growing demand for streamlined, hospitality-grade FF&E packages

About Inhabitr

Founded in 2018, Inhabitr is the world's first AI-powered, one-stop furnishing solution for commercial real estate, supporting every stage of the process: design, sourcing, procurement, manufacturing, delivery, installation and financing.

As a tech-centric, end-to-end furnishing platform for CRE, Inhabitr transforms the journey from inspiration to inauguration. Our innovative technologies and specialised teams turn vision into reality while optimising asset value. We act as your digital procurement agent.

Inhabitr is a global pioneer in AI-driven Furniture, Fixtures and Equipment (FF&E), providing a complete ecosystem for hospitality assets, including Select Service and Full-Service hotels. By leveraging proprietary agentic AI technology, we bridge the gap between visionary design and execution.

Our platform enables seamless design, pricing, and sourcing, reducing the timeline from initial concept to final budget from months to weeks, while also lowering total landed cost. We take full accountability for the quality of the FF&E we supply—both prototypical and custom.

Artificial & Human Intelligence Combined

Inhabitr brings together advanced technologies with human expertise and creativity to deliver superior outcomes.

With patented technologies and an integrated delivery model, Inhabitr drives efficiency across the entire furnishing lifecycle, providing more value with less effort, reduced cost, and faster speed-to-market.

PRODUCT RANGE AND SERVICES

From inspiration to inauguration, Inhabitr elevates and streamlines the furnishing process. Innovative technologies and specialised teams turn visions into reality, optimising the commercial real estate (CRE) asset value.

COMPANY BIO

iSpy Group Ltd is a UK-based provider of commercial coffee, water and vending solutions, supporting hotels and hospitality venues with reliable, fully managed refreshment services. With over 20 years' industry experience, we understand the importance of uptime, consistency and guest satisfaction.

We supply, install and maintain a wide range of equipment including traditional espresso machines, high-capacity bean-to-cup systems, guest-facing coffee stations, hot and chilled water dispensers, and indoor and outdoor vending solutions. Our managed service covers installation, maintenance, consumables and ongoing account management, ensuring minimal disruption to daily operations.

iSpy Group operates its own in-house engineering team and customer support department, enabling fast response times and dependable nationwide coverage. We also offer flexible in-house leasing, allowing sites to upgrade equipment without significant capital expenditure.

Working with hotels, leisure venues and multi-site operators across the UK, we focus on operational reliability and long-term partnerships rather than one-off supply. We also provide our own freshly roasted Grizzly Bear Coffee, helping venues deliver a consistent, high-quality experience for guests and staff.

Our aim is simple: to make hospitality refreshment services easy to operate, dependable to maintain and consistent for every guest.

 COMPANY BIO

KITRO is a Swiss foodtech company on a mission to eliminate food waste in commercial kitchens. Born at the Ecole Hôtelière de Lausanne, we combine smart scales, AI-powered image recognition, and expert consultancy to give hospitality operators full visibility into their food waste, automatically, with zero extra work for kitchen teams.

Our solution requires no screens, no buttons, no manual logging: kitchen teams dispose of waste as usual, while our device automatically weighs and photographs each item. An AI system recognizes over 800 food items, and every client is paired with a dedicated KITRO consultant, who reviews the data quarterly with operational teams to define concrete actions.

The results: hotels typically reduce food waste by 30-60%, translating into food cost savings of 2-8%, alongside measurable sustainability progress and regulatory compliance.

KITRO already works with 500+ kitchens worldwide, including Hyatt, Marriott, Four Seasons, Pestana, and Barceló, as well as cruise lines, offshore catering, and collective catering providers like Aramark and Compass Group.

We look forward to connecting with procurement and operations leaders at Hospitality Forum EU to explore how KITRO can reduce food cost and waste across your portfolio.

 PRODUCT RANGE AND SERVICES

KITRO provides an automated food waste measurement and reduction solution for commercial kitchens:

- Smart scales with cameras: automatically weigh and photograph waste, zero staff interaction required
- AI recognition: identifies 800+ food items, distinguishes automatically edible from inedible waste, tracks trends by product, outlet, day and service time
- Human-validated data: AI results checked for accuracy
- Dedicated consultancy: quarterly reviews with operational teams to define waste-reduction actions
- Group-level reporting: multi-property dashboards to track performance, ROI, and CO2 savings.

Kvadrat was established in Denmark in 1968 and has deep roots in Scandinavia's world-renowned design tradition. A leader in design innovation, Kvadrat offers an extensive portfolio of high-performance upholstery and curtain textiles, rugs, window covering and acoustic solutions, with ranges to suit different budgets, aesthetics, and performance requirements, complemented by custom-made solutions tailored to specific project needs.

Our products reflect our commitment to colour, quality, simplicity, and innovation. We consistently push the aesthetic, technological, and functional properties of textiles. In doing so, we collaborate with leading designers, architects and artists including Patricia Urquiola, Ronan and Erwan Bouroullec, Margrethe Odgaard, Alfredo Häberli, Doshi Levien, Giulio Ridolfo, Peter Saville, Pipilotti Rist, Thomas Demand and Olafur Eliasson.

Sustainability has been a defining pillar at Kvadrat from the beginning. ISO 14001 certified since 1997, we continuously assess the environmental impact of our products. Our LCA and EN15804 EPD models follow ISO 14040 standards, while the majority of our woollen products carry the EU Ecolabel.

With showrooms, sales offices, worldwide distribution, and close collaborating partners across Europe and around the globe, Kvadrat combines global reach with strong local expertise and support. This international network makes Kvadrat easy and efficient to specify, source and support across projects worldwide.

Website

www.masa.it/en

COMPANY BIO

Founded in 1949 in the textile district north-west of Milan, Masa S.p.A. has spent more than seventy-five years producing linen for people who set tables and make beds for a living.

The company began with table linen, and it remains the core of its identity. Tablecloths, napkins, runners in cotton, cotton-linen blends and 100% linen are developed for restaurants, hotels and catering operations where a table is dressed and cleared several times a day. Every construction is built around what happens after service: repeated washing at high temperature, professional finishing, and the expectation that the cloth still looks right after hundreds of cycles.

The same principle guided the extension into bed and bath. Sheets, duvet covers, pillowcases, towels and bathrobes are built to the same standards of yarn selection, weight and dimensional stability, allowing a property to rely on a single supplier from the restaurant floor to the guest room.

Creativity and availability are not alternatives here. Custom jacquards, monograms and colours are developed in-house when a property wants a table of its own, while running articles are held in stock: a distinctive choice can still be reordered season after season, without long lead times and without drifting from what is already in use.

Today Masa works with hotels and restaurant groups across the world with the conviction it started from in 1949: that a well-made cloth is judged not on its first day, but on its hundredth.

PRODUCT RANGE AND SERVICES

Masa's range covers the three areas a property needs dressed. Table linen: tablecloths, overlays, runners and napkins in cotton, cotton-linen blends and 100% linen, plain, satin-band or jacquard. Bed linen: sheets, fitted sheets, duvet covers and pillowcases in a range of weights and yarn counts. Bath linen: towels in all standard formats, bath mats and bathrobes. Sizes are adapted to each property's own formats.

Logos, monograms and custom motifs are woven into the cloth, not applied to it, and developed in-house from sketch to approved sample. Masa also advises on wash and finishing parameters, supplies samples for trials, and follows up directly in Italian, English, French and German.

PRODUCT CATEGORY

- Table, bed and bath linen

COMPANY BIO

Founded in Milan in 2014, Matlight Milano is an Italian luxury lighting brand where natural stone and light come together in a refined dialogue of craftsmanship and contemporary design. Guided by the philosophy "Stone Meets Light," the company creates handcrafted lighting and furniture collections that celebrate the timeless beauty of alabaster, marble, onyx and selenite, paired with noble metals such as brass and bronze.

Every Matlight creation is conceived, finished and assembled by hand in Milan by skilled Italian artisans, combining traditional know-how with modern technologies. Characterized by clean geometric forms, soft atmospheric light and meticulous attention to detail, each piece is designed to enhance the natural translucency and unique veining of the stone, transforming it into a sculptural source of illumination.

Working closely with architects, interior designers and private clients worldwide, Matlight Milano offers extensive customization of materials, finishes and dimensions, allowing every project to become truly unique. More than decorative lighting, Matlight creations are bespoke design objects conceived to integrate seamlessly into sophisticated residential, hospitality and commercial interiors.

Entirely Made in Italy, Matlight Milano embodies the excellence of Italian craftsmanship with the ambition of creating timeless products where innovation, materiality and enduring elegance coexist in perfect balance

PRODUCT RANGE AND SERVICES

Matlight Milano designs and manufactures handcrafted luxury lighting and furniture, entirely made in Italy. The collection includes wall sconces, pendant lights, chandeliers, table lamps and floor lamps crafted from premium natural stones—including alabaster, selenite, marble and onyx—paired with brass, bronze and nickel.

Every piece is handcrafted by skilled Italian artisans and can be extensively customized in terms of dimensions, materials, stone selection, metal finishes and technical specifications, allowing each product to be tailored to the requirements of individual projects

COMPANY BIO

Samsung Electronics UK is a premier subsidiary of Samsung Electronics Co., Ltd., a global leader in technology and electronics headquartered in Seoul, South Korea. Established to cater to the UK market, Samsung Electronics UK plays a pivotal role in bringing cutting-edge innovations and exceptional services to consumers and businesses across the United Kingdom.

Since its inception, Samsung Electronics UK has been at the forefront of technological advancement and consumer satisfaction, continually introducing products that revolutionize the way people live and work. The company's diverse portfolio spans mobile devices, home entertainment, home appliances, and digital solutions. Samsung smartphones, notably the Galaxy series, are highly regarded for their superior design and functionality. In home entertainment, Samsung leads with its pioneering QLED and 8K televisions, delivering unparalleled visual experiences. The company also excels in providing state-of-the-art home appliances, including innovative refrigerators, washing machines, and smart home solutions that integrate seamlessly with the modern lifestyle.

Samsung Electronics UK is not only dedicated to product excellence but also to sustainability and community engagement. The company actively pursues eco-friendly initiatives, striving to minimize its environmental footprint through energy-efficient products and sustainable practices. Additionally, Samsung is deeply involved in community and educational projects, fostering digital literacy and supporting local charities.

Employing a dynamic team of professionals, Samsung Electronics UK is headquartered in Chertsey, Surrey, strategically positioned to understand and respond to the unique needs of the UK market. The company's commitment to customer-centric innovation and its continuous drive to exceed expectations have solidified its reputation as a trusted and influential player in the technology sector.

In a rapidly evolving digital landscape, Samsung Electronics UK remains steadfast in its mission to inspire the world and shape the future through transformative ideas and ground-breaking technology. With a steadfast focus on enhancing the lives of its customers, Samsung continues to push the boundaries of what is possible.

THE JEWEL LAMP COLLECTION STORY

An elegant bejewelled bespoke lamp Collection. Inspired by the women in my maternal line. Granny, a 1920s flapper with a rebellious streak. Mother, a theatrical force who lit up every room. And my aunt, a jewel loving interior designer with a flair for the dramatic. The Jewel Collection sparkles with personality because it's rooted in the women who shaped me. It's a celebration of glamour, heritage and eccentricity - all wrapped in light.

This premiere lamp Collection will be followed by the next-generation line consisting of a chandelier and wall lights.

PRODUCT RANGE AND SERVICES

THE COLLECTION

The Collection consists of a Table Lamp, Floor Lamp and a Bar (or Nautical) Lamp. Each lamp can be configured with 'jewels' of diamond cut glass, sapphire blue, emerald green, ruby red, amethyst and pear or rock crystal. With a choice of finial, metal finish and silk flex, this enables you to design your own lamp to suit your unique interior.

We are excited to report that the Jewel Collection has been shortlisted for the Darc Awards.

COMPANY BIO

Swimovations Ltd is a UK and EU based specialist in innovative buoyancy products, swimwear, beachwear.

Founded in 1998 with the launch of the first neoprene, adjustable gilet style buoyant aid to swimming with hidden removable floats (The Original Konfidence Jacket).

Since then we have distributed our three brands Konfidence, SwimBest and Go Swim to over 27 countries alongside working with holiday resorts, leisure operators, swim schools, hotels and adventure-holiday companies around the world.

We have extensive experience in product design, safety, compliance, and international supply, enabling us to support everyone from retailers and independent hotels to major leisure and tourism groups such as Center Parcs UK, Scott Dunn, Neilson and Mark Warner.

Endorsement and collaboration with international swimming organisations and awarding bodies including USA Starfish Aquatics, UK Swimming Teachers Association, the International Federation of Swimming Teachers Associations and World Drowning Prevention.

Whether you need poolside buoyancy, a ready-to-retail product range, branded staff clothing or a completely bespoke waterside solution, we can create a package tailored to your guests, facilities and commercial objectives.

PRODUCT RANGE AND SERVICES

- High end retail ranges that create additional revenue opportunities for resort shops and leisure facilities.
- Custom-branded swim vests, buoyancy products and swimwear for all ages.
- Practical, professional uniforms for swimming teachers, lifeguards and other waterside staff.
- Swimwear, wetsuits and activity equipment for children's clubs and adventure-holiday programmes.
- Bespoke product development, branding and packaging tailored to individual operators.

COMPANY BIO

T A Interiors is a specialist UK manufacturer of bespoke artwork, mirrors and decorative interior solutions for the hospitality, cruise, care and commercial sectors.

Working with hotel groups, interior designers, architects, specifiers, procurement teams and fit-out contractors, we manufacture tailored interior pieces for projects ranging from individual statement features to large-scale bedroom, corridor and public-area schemes.

With design, printing, CNC machining, laser cutting, framing, finishing and fabrication all completed in-house, we maintain close control over quality, consistency, lead times and finish throughout every stage of production.

Our capabilities include bespoke artwork packages, custom mirrors, shaped and specialist frames, CNC 3D artwork, laser-cut features and decorative wall panelling, all developed and manufactured to meet the individual aesthetic, specification and scale requirements of each project.

Our experienced in-house design and production teams work collaboratively with clients from concept and prototyping through to manufacture and installation, transforming creative ideas, design briefs and specifications into commercially viable, contract-ready interior solutions.

From guest bedrooms and corridors to receptions, restaurants, lounges and statement public spaces, T A Interiors combines British manufacturing expertise, craftsmanship and creative capability to deliver distinctive interiors at scale.

PRODUCT RANGE AND SERVICES

- Bespoke printed and framed artwork
- Bespoke mirrors and feature mirrors
- Custom-shaped and specialist frames
- CNC 3D and layered artwork
- Laser-cut decorative features
- Decorative wall panelling
- Bespoke signage and interior features
- In-house spray finishing and colour matching
- Project manufacturing
- Full installation service

**COMPANY BIO**

The Design Group is an international design, procurement and manufacturing company specializing in custom contract furniture and contract lighting. Designer Chandeliers operates as our partner company, with a dedicated focus on bespoke contract lighting.

With more than 12 years of experience, our headquarters are in Miami, supported by offices in New York, Guangzhou, China, and now Bulgaria. We have completed projects for more than 100 restaurants and over 50 hotels worldwide, including Four Seasons, Marriott, Hilton, Holiday Inn, Soho House and Palace Hotels.

We serve clients throughout Europe through our Bulgarian office and established manufacturing network across Asia. Our complete door-to-door service includes design development, engineering, production, quality control, shipping, customs coordination and final delivery.

Our direct manufacturing model allows us to offer highly competitive pricing. In most cases, we can match or improve comparable quotations from qualified vendors while maintaining the required design, material and quality standards. We also help clients optimize procurement, logistics, customs and tax-related costs in full compliance with applicable regulations.

When required, we can provide supply and production bonds. We also offer extensive product warranties, rigorous quality control and dependable after-sales support.

**PRODUCT RANGE AND SERVICES**

We provide custom contract furniture, decorative lighting and complete project support for hotels, restaurants, residences and commercial developments.

Our range includes chandeliers, sconces, pendants, lamps, feature lighting, casegoods, upholstered seating, tables, banquettes, beds, headboards, cabinetry and bespoke millwork.

Services include design development, engineering, shop drawings, sampling, prototypes, value engineering, manufacturing, quality control, shipping, customs coordination and door-to-door delivery.

We also offer extensive warranties, after-sales support and supply or production bonds when required.

COMPANY BIO

Tropical Mountains is a Swiss premium coffee partner delivering future-ready coffee solutions for hotels, restaurants and hospitality groups across Europe.

Hospitality businesses are not looking for coffee products—they are looking for a dependable partner who makes coffee effortless. From procurement and logistics to guest experience and sustainability, we provide complete coffee solutions that reduce complexity, improve operational efficiency and create long-term value.

As a Certified B Corporation, we help hotel groups and hospitality operators meet the growing expectations of guests, investors and corporate procurement teams. Our certifications—including Organic, Fairtrade, EcoVadis and ClimatePartner—support customers in achieving their ESG objectives, strengthening supplier compliance and responding to increasingly demanding sustainability requirements in tenders and corporate reporting.

PRODUCT RANGE AND SERVICES

Our mission is simple: make coffee one less thing our customers have to worry about.

We deliver an end-to-end coffee programme combining premium products, dependable supply, responsive service and industry-leading sustainability.

- One strategic coffee partner across Europe
- Simple ordering and streamlined procurement
- Reliable logistics and consistent product availability
- Premium coffee with consistent quality in every cup
- Responsive customer service and long-term partnership
- Innovative products that elevate the guest experience
- Solutions that help hospitality businesses future-proof their coffee offering and ESG strategy

Our portfolio includes:

- Premium whole bean and ground coffee
- Home-compostable coffee capsules compatible with the Nespresso® system
- The world's first instant coffee single-serve in certified home-compostable packaging
- Innovative RTD (Ready-to-Drink) Iced Coffee in plastic-free cup solutions
- Organic and Fair Trade coffee programmes
- Private-label and customised hospitality concepts

Whether serving an independent boutique hotel or an international hospitality group, our objective remains the same: simplify operations, delight guests, reduce environmental impact and deliver a coffee programme that is ready for the future.

One Partner. One Order. One Sustainable Coffee Solution.

COMPANY BIO

Every professional kitchen wastes between 5 and 15% of what it buys - and most of it is predictable. You're losing money on over-prepped and over-produced items service after service.

Measurement is the first step, but it only tells you what you've already lost. Winnow closes the loop by combining intelligent AI with human expertise. Our 'Throw and Go' technology tracks waste automatically with zero friction, ensuring you capture the whole waste stream without slowing your team down.

Then, Winnow acts: our AI identifies exactly where costs sit and forecasts production needs service by service. But data alone doesn't change behavior - our dedicated culinary experts coach your team to make the changes stick. As every service adds data, the system gets sharper, the forecast gets more accurate, and waste is designed out at the source.

Your chefs stay the heroes. The system does the counting and the predicting, so your chefs can do what they do best: cook. Food waste isn't just a cost of doing business; it's profit in the bin. Winnow turns that waste into a 2 to 10 times return on investment, saving partners in almost 100 countries around the world over \$100 million in food waste every year.

PRODUCT RANGE AND SERVICES

Winnow's product range covers every stage of a kitchen's food waste journey, from prevention to measurement.

Foresight uses AI-powered forecasting to tell chefs exactly how much to prepare for each service, cutting overproduction and stockouts with no hardware required.

Our Vision range tackles waste measurement with fully automated Throw & Go® recording: VisionAI delivers market-leading AI tracking with plug-and-play setup. Vision PW extends coverage to plate waste, using a connected camera and scale to capture what guests leave behind. These solutions give kitchens the data and coaching to plan smarter, reduce waste, and improve profitability across every property.
