COMPANY BIO

3D Facilities Support is an established, successful, multi award winning company. RAC Contractor of the Year 2021 is amongst our many recent accreditations. The Care Industry business sector has traditionally attributed significantly to our customer portfolio. We have proudly worked past and present with various businesses from singular independents to large scale nationwide organisations.

Our wealth of expertise and experience allows us to engage with clients to deliver planned maintenance and support programs that are bespoke to their needs and business priorities. We offer 24/7/365 emergency services and solutions for all of your HVAC, mechanical, electrical and statutory compliance requirements to keep your Care Home environment safe and compliant for the benefits of residents, visitors and staff alike.

We are a scalable and adaptive business with directly employed fully qualified engineers and support staff. 3D has strong ethical and professional values that run throughout our skilled and dedicated staff, a passionate team focussed on strong customer support and service delivery of the highest quality. Our mobilisation and site attendance times are second to none. Whether it be for reactive service call outs, remedial repairs, planned preventative maintenance or turnkey solution projects, our testimonials consistently confirm that you are in good hands with 3D Facilities Support.

We continue 'Engineering your Environment with a Reputation to Maintain'.

COMPANY BIO

Accora is a UK-based manufacturer specialising in equipment for care homes and residential care environments. From its Cambridge headquarters, the company designs and produces profiling beds, pressure-relief mattresses and specialist seating that support safe, comfortable and person-centred care.

Its care home range is designed to meet a wide spectrum of resident needs, helping reduce falls risk, support pressure care and promote independence, while enabling carers to work safely and efficiently. Accora combines clinical functionality with design-led aesthetics to create homely, modern environments without compromising care quality.

Working in partnership with care providers, Accora supports new builds, refurbishments and ongoing operations, offering training and clinical guidance alongside its products.

PRODUCT RANGE AND SERVICES

Accora provides a range of profiling beds, pressure-relief mattresses and specialist seating designed for care home environments. The portfolio supports a wide range of resident needs, with a focus on falls prevention, pressure care and postural support.

Products combine clinical functionality with design-led aesthetics to create safe, comfortable and homely settings.

Alongside its products, Accora offers delivery, installation, training and access to clinical expertise, supporting care providers from initial selection through to ongoing use.

COMPANY BIO

apetito are the leading experts in serving nutritious, delicious care home meals for older people.

We are passionate about providing our partners with the skills and knowledge to empower them to create an exceptional dining experience with great food that is shared and enjoyed.

PRODUCT RANGE AND SERVICES

We believe that everyone deserves access to a tasty and nutritious meal, no matter their dietary needs. Packed with high-quality ingredients, our care home meals are carefully developed by our expert chefs and in-house dietitians to guarantee that they not only taste delicious but are nutritionally balanced.

Alongside prioritising nutrition, our easy-to-follow cooking method ensures great tasting and looking meals in your care home every time, with minimal staff training required.

We also understand that mealtimes are about more than just nutrition; they are a way of connecting people. Therefore, it is important to not only deliver exceptional food but provide your residents with a fantastic and enjoyable dining experience.

COMPANY BIO

At Home Dental is one of the UK's leading providers of domiciliary dental care and oral health education, delivering high-quality oral health support, training and advice, and dental services directly to care homes and patients in their own homes. We are also the provider of the largest supervised toothbrushing programme in England, covering the south west. Our mission is to improve access to high quality oral health education and support, and dentistry for those who may otherwise struggle to access it, ensuring patients receive compassionate, preventative and responsive oral healthcare where they live.

Our services include:

Free oral health assessments for all care home residents, with a personalised oral health report and care plan provided following the assessment.

Oral health training for care home teams, helping staff develop the knowledge and confidence to support residents' oral health and meet best practice standards.

- Routine dental examinations and treatment delivered within the care home.
- Urgent and emergency dental care.
- Denture assessments, repairs and replacement solutions.
- Preventative oral health programmes.

By working in partnership with care providers, we improve access to dental care, enhance residents' quality of life, reduce avoidable hospital admissions and support compliance with CQC expectations for oral healthcare. We are committed to helping care homes deliver the highest standards of oral health for those in their care.

PRODUCT RANGE AND SERVICES

- Oral healthcare assessments and care plans
- Oral health education including mouth care champion training
- Routine dental examinations
- Dental treatments including Xrays, fillings, extractions.
- Denture scanning service
- Urgent assessment and treatment

COMPANY BIO

Added Value Enterprises (AVE) is an independent procurement and nutrition consultancy helping organisations across the UK cut costs, strengthen supply chains, and raise standards without compromising quality. Founded in 2021 and based in Worcester, AVE manages over £150m of aggregated spend across 2,000+ sites, combining serious buying power with genuine independence.

Health and social care sits at the heart of what we do. We work with care home groups, domiciliary providers, and healthcare operators to control food and non-food procurement costs, improve nutritional standards for residents and patients, and support CQC compliance. Our team brings frontline operational experience, including Registered Manager expertise, so we understand the realities of running a care setting, not just the numbers behind it.

Beyond care, AVE partners with clients across education, hospitality, and business and industry, helping schools meet School Food Standards and supporting operators in securing better value on the products and services that matter to their margins.

What sets us apart is our model. We are independently owned, so our advice is driven by what is right for the client, not by supplier relationships. We work on a no-neutral, savings-sharing basis, meaning clients only benefit when we deliver measurable value. A straightforward, transparent partnership built on results

PRODUCT RANGE AND SERVICES

Procurement

Food & beverage: ambient/grocery, chilled, frozen, fresh produce, dairy, bakery, meat & poultry, fish & seafood, drinks.

Non-food: catering disposables & packaging, COSHH & cleaning chemicals, janitorial & hygiene, PPE, medical & care consumables, kitchen equipment, washroom & facilities, waste management

Nutrition & menu support – Improving nutritional standards, allergen & dietary compliance, and meeting CQC and School Food Standards.

Supplier & contract management – Onboarding, e-procurement setup, invoice consolidation, and ongoing account management.

Advisory & compliance – Procurement strategy, framework access, and inspection readiness.

COMPANY BIO

Camellia's Tea House is one of the UK's leading wellness tea companies, supplying luxury hotels, spas and premium hospitality venues with exceptional teas that combine traditional tea craftsmanship with modern nutritional science.

They have developed a unique collection of functional teas specifically for the care home sector, helping providers enhance resident wellbeing through the simple pleasure of a great cup of tea. Their blends are designed to support some of the most common health and wellness needs associated with later life, including healthy digestion and bowel regularity, restful sleep, memory and cognitive function, mental focus, joint mobility and overall vitality.

Unlike many functional drinks, their teas never compromise on taste. Each blend starts with premium black, green, herbal or fruit teas, carefully crafted to deliver the flavour, comfort and familiarity that residents enjoy every day. Selected teas are enhanced with carefully chosen functional ingredients to provide additional wellness benefits while maintaining an enjoyable drinking experience.

Tea remains one of Britain's most cherished daily rituals, making it an ideal way to support healthier ageing and improve resident satisfaction. By combining luxury hospitality standards with innovative wellness formulations, Camellia's Tea House helps care homes elevate their tea offering, create meaningful daily moments of enjoyment and support the health and wellbeing of residents through a delicious range of functional teas created specifically for older adults.

Ajit Madan is an accredited Mater Tea Sommelier, an entrepreneurial CEO and former investment banker with over two decades of experience across global banking and consumer brand building.

COMPANY BIO

Care England, a registered charity, is the largest representative body for independent providers of adult social care in England.

We speak with a unified voice for our members and the care sector. We are committed to supporting a united, quality-conscious, independent sector that offers real choice and value for money. Our aim is to create an environment in which care providers can continue to deliver and develop the high quality care that communities require and deserve.

Our membership includes organisations of varying types and sizes, amongst them single care homes, small local groups, national providers and not-for-profit voluntary organisations and associations. Between them they provide a variety of services for older people and those with long term conditions, learning disabilities or mental health needs.

PRODUCT RANGE AND SERVICES

Care England membership is not an expense, it's an investment. As part of your membership, you have access to a wide range of support, services and tools:

- Policy & Funding Support – Guidance and direct support for providers challenging local authority funding decisions, including template letters, advice, and intervention with councils where appropriate.
- Regular policy communications
- Representation at local and national levels
- Forums for providers to share, learn and develop good practice
- Local and national media opportunities
- Expert led briefings
- Exclusive member savings, discounts and support: Save on essential services such as insurance, legal advice, utilities, and consumables, helping you focus on growing your business.
- SMART Care Intel is a data intelligence platform designed specifically for care providers. Analysing over 110,000 actual CQC inspections, it combines CQC data, performance trends and practical management tools to help services benchmark performance, identify improvement opportunities and prepare confidently for inspections. The platform includes improvement planning, mock inspections, policy and procedure support, leadership intelligence and staff knowledge checks, enabling providers to turn insight into action and drive continuous quality improvement.
- Market Intelligence Tool (MINT) – Care England's market intelligence portal provides access to key CQC, fee, financial and sector data across older people's and younger adult services. The searchable platform enables care providers to benchmark and analyse local authority-level data to support informed business and operational decisions.
- Strategic Management Audit Repository Tool (SMART) - A tool that is free to use for all social care providers and acts as an aid memoir to support management and regular reviews of all care services, and grants access to a myriad of support designed to bring down the cost of care and keep care providers informed and up to date with a raft of resources and guidance without charge.
- Expert Guidance: Access white papers and reports with actionable insights to overcome challenges, boost ROI, and deliver exceptional care.
- Job Board: A free job board for care providers to help reduce reliance on costly external job sites.

Agency staffing in care is complicated. When usage, compliance and cost often spread across multiple systems, it makes it harder to control spend, manage risk and understand what's really happening.

Care Hires brings everything into one place, giving providers full visibility and control over agency use, compliance, shift fulfilment and spend. With one clear view, teams make faster decisions, reduce admin and manage staffing with confidence.

Trusted by over 1,200 care services and 1,300 agencies, Care Hires is built specifically for social care to ensure every shift, worker and document is fully traceable, compliant and audit-ready, protecting care and the people behind it.

PRODUCT RANGE AND SERVICES

Care Hires supports residential and nursing care, complex care, supported living, children's services, SEND and specialist education, including multi-site and group organisations. Designed around the realities of care, not generic workforce software adapted for the sector.

From shift management to invoicing, teams get everything they need to manage agency staff. All in one place.

Shift Management: One place for every open shift.

Nationwide Supply: 1,300+ agencies, managed neutrally from one screen.

Compliance: Always compliant, tracked automatically.

Invoicing: One invoice, every agency, zero reconciliation.

Reporting: Total visibility in real-time.

Generating Private-Funded Admission Enquiries for Care Homes

At chat4business, we specialise in helping care homes attract and convert private-funded admissions, connecting your home with families actively seeking high-quality, personalised care for their loved ones.

Our platform delivers human, real-time communication at every stage of the enquiry journey. From the first question to booking a tour, we ensure no opportunity is ever missed.

What We Do

Our dedicated human reception chat team provides empathetic and professional responses to even the most complex family enquiries. Unlike automated bots, our people build genuine relationships, the kind that turn website visitors into residents.

We combine live chat with detailed analytics, giving you full visibility of lead quality, engagement, and conversion rates, so you can make smarter decisions and maximise revenue from private-funded placements.

Whether you operate a single care home or a large multi-site group, our solution scales with you, handling everything from basic information requests to nuanced funding conversations.

Why Care Homes Choose chat4business?

- Round-the-clock enquiry handling, never miss a lead,
- Human-led chat for empathetic, personalised engagement.
- Data-driven insights to optimise conversion.
- Specialist focus on private-funded admissions.

Ready to grow your private-funded admissions?

COMPANY BIO

Golden Age Entertainment is a specialist provider of structured wellbeing sessions designed to enhance the quality of life for residents in care homes. We go beyond traditional entertainment by delivering consistent, engaging, and measurable programmes that support holistic care and align with CQC outcomes.

Our sessions – including Singing & Entertainment, Reading Circles, Seated Exercise, and Reminiscence-based activities – are carefully designed to improve mood, increase participation, and create meaningful moments of connection. Each session is delivered with a clear structure and purpose, ensuring residents are not just occupied, but genuinely engaged and stimulated.

What sets us apart is our focus on measurable impact. We provide insight into resident engagement and participation, giving care homes tangible evidence of the difference being made – supporting both internal standards and external inspections.

We work with both independent care homes and multi-site groups, offering flexible wellbeing packages as well as pilot programmes for larger organisations. Our approach helps create consistency across services, reduces pressure on staff, and builds a culture where wellbeing is not occasional, but embedded.

At Golden Age Entertainment, we are committed to helping care providers move from activity-based engagement to a structured, outcome-driven approach that truly enhances lives.

PRODUCT RANGE AND SERVICES

Golden Age Entertainment delivers structured wellbeing and engagement programmes for care home residents. Our sessions – including Singing & Entertainment, Reading Circles, Seated Exercise, and Reminiscence – are designed to improve mood, increase participation, and support holistic care aligned with CQC outcomes. We focus on consistent, meaningful engagement rather than passive activities, helping residents feel more involved and connected. We offer flexible packages for individual homes and pilot programmes for larger groups, alongside engagement tracking to provide clear evidence of impact for internal use and CQC inspections.

Provide wellbeing and engagement services for domiciliary care residents

Oh No... Not Again!

Internet down.

WIFI not working.

Phones dropping.

CCTV offline.

Systems slow.

You call one company – they blame another.

You're left on hold.

Nothing gets fixed properly.

Meanwhile:

- Staff can't work efficiently
- Guests or residents complain
- Projects get delayed
- Reviews suffer
- Compliance is at risk

You shouldn't have to manage IT problems.

We Fix It in 3 Simple Steps

1 Free Site Survey

Full audit of your Internet, WIFI, Phones, CCTV, Computers & Cabling.

2 3 Hours Free On-Site Support

If it's a minor issue – we fix it free.

3 Clear Report & Immediate Solutions

With practical recommendations and 3 hours labour included.

What We Do

- Superfast Internet (even rural locations)
- Complete WIFI coverage
- CCTV installation & support
- Structured data cabling
- IT support & management
- Cloud telephony & email systems

For care homes – we design, install and support reliable IT systems that just work. Clients include, Abbey Healthcare and Bondcare Group.

26 Years Experience. One Point of Contact. No Blame Game.

Ask for your free survey.

PRODUCT RANGE AND SERVICES

- IT Support For Care Providers
- Reliable fast Internet even in rural locations
- WIFI – Full Coverage
- Telephone Systems
- Office 365 Email
- Power BI Reporting Dashboards
- NHS Security Toolkit (IT Side Completed)
- Free WIFI Surveys

COMPANY BIO

HMA Tax are an award winning Capital Allowances Specialist, and over the past decade they have helped commercial property owners identify unclaimed Capital Allowances, generating substantial income/corporation tax relief and refunds.

Most care home owners are unaware that their property is holding thousands of pounds of unclaimed tax relief in the form of Embedded Capital Allowances. Typically, we would expect to find an average of 35% of the original purchase value of a care home property in previously unidentified Capital Allowances. £350K of allowances in a £1M property translates as £225K in tax refund and/or reduction in future tax liability to a higher rate taxpayer. If you have not had survey of your properties, it is likely these allowances remain unclaimed.

If you own a commercial property and are a UK tax payer, then you are eligible to make a claim. With over 8,500 claims completed, HMA Tax is trusted by thousands of commercial property owners, and they work with many accountants & solicitors across the UK in this specialist sector.

COMPANY BIO

Founded in 2002, Humanforce has built strong foundations with a customer base of over 2,600 organisations and is heading towards one million employees under management, across frontline, shift based industries. With deep experience in the care sector, Humanforce supports care homes and care groups with a complete, connected workforce platform, covering recruitment, onboarding, HR, learning, workforce management, scheduling, time and attendance, and payroll, everything needed to attract, manage, engage and pay their people, in one place.

Our platform helps care providers move away from manual processes and disconnected systems, giving senior stakeholders, from operations managers and finance directors to business owners and HR leaders, real-time visibility across the entire people operation, alongside stronger compliance, smarter scheduling and a simpler employee experience.

Humanforce works with care organisations to reduce administration, improve workforce planning and give teams more time to focus on delivering quality care.

PRODUCT RANGE AND SERVICES

Applicant Tracking

Attract and hire the right people faster

- Advertise roles across multiple channels from one place
- Track candidates through every stage of the process
- Cut time to hire with a single source of truth

Onboarding

Turn new starters into productive team members faster

- Digital right to work, contracts and documentation
- Remove duplicate data entry into payroll and HR
- Give new starters a smoother, guided start

Workforce Management

Build demand-based rosters with confidence

- Multi entity and multi site visibility
- Capacity and demand-based scheduling
- Flag errors, no shows and budget overruns automatically

Payroll

Remove manual reconciliation for good

- Built in payroll engine connected to time and attendance

Internal Talent

Build a talent pool from within

- Identify internal candidates for open roles
- Re-engage previous applicants for future vacancies
- Support career progression and retention

HR

Manage the full employee record in one place

- Visa, right to work and compliance document tracking
- Automated alerts for expiring documents
- Self-service for personal detail and circumstance changes

Learning Management System

Keep training and compliance up to date

- Assign and track mandatory training by role
- Automated reminders ahead of expiry
- Evidence ready for inspection

Payroll contd

- Real time reporting on cost per resident per care hour
- One system, one source of truth, on any pay cycle

iSpy Group Ltd is a UK-based provider of commercial coffee, water and vending solutions, supporting care homes and healthcare environments with reliable, fully managed refreshment services. With over 20 years of industry experience, we understand the importance of dependable equipment, responsive support and providing high-quality refreshments for residents, visitors and staff.

We supply, install and maintain a wide range of equipment including bean-to-cup coffee machines, traditional espresso machines, hot and chilled water dispensers, hydration stations and indoor vending solutions. Our managed service covers installation, maintenance, consumables and ongoing account management, helping care providers minimise disruption and reduce the burden on internal teams.

iSpy Group operates its own in-house engineering team and customer support department, enabling fast response times and dependable nationwide coverage. We also offer flexible leasing options, allowing care homes to upgrade equipment and improve facilities without significant capital expenditure.

Working with care homes, residential settings and multi-site care providers across the UK, we focus on reliability, ease of use and long-term partnerships. We understand that refreshments play an important role in resident wellbeing, social interaction and staff welfare, and we work closely with our customers to provide solutions that meet the needs of their environment.

We also supply our own freshly roasted Grizzly Bear Coffee, alongside a range of beverage ingredients and consumables, ensuring a consistent and high-quality experience for residents, visitors and employees alike.

Our aim is simple: to make refreshment services easy to manage, reliable to maintain and enjoyable for everyone who uses them.

COMPANY BIO

Since 1976, we've been dedicated to protecting and improving the health of people at work. For care homes, that means bringing together everything you need to keep staff safe, compliant, and performing at their best.

Our products and services cover three areas:

1. Medical & safety products

Over 6,000 items, from infection control and PPE to first aid essentials, all manufactured or procured for care environments.

2. Workplace training

From first aid to biohazard decontamination, our trainers come to you, equipping your team with the skills to keep residents and colleagues safe.

3. Occupational health

Care work is demanding. We help you protect your workforce through health surveillance, pre-employment assessments, and absence management - reducing risk and keeping your team at their best.

With 50 years of expertise, we're your single trusted partner for workplace health.

PRODUCT RANGE AND SERVICES

Why talk to us? We're one supplier for all your workplace health needs.

PPE, infection control, first aid, hygiene, continence and more - all under one roof. Less time chasing suppliers. More time focused on care. Whether you run a single site or a national portfolio, we scale with you.

Training delivered on-site by trainers who understand care. Compliance sorted, without pulling your team off the floor.

Occupational health that keeps good people in work - assessments, surveillance, management referrals, all taken care of.

New Patient Dry Wipes - coming soon

Better quality, lower price, built for care settings. Come and see us on the day for the full details.

COMPANY BIO

M7 Polska is a British-Polish family-run company, based near Poznan, Poland, exporting healthcare furniture to clients from Britain, Ireland, Europe as well as Canada and New Zealand for over 20 years, concentrating predominately on care home and hospital furniture.

We cover every spectrum of the furniture industry, from upholstered dining and living room furniture (upholstery foams meeting UK norms), standard bedroom cabinetry, weighted furniture (double carcass), coffee tables and dining tables, electric or manual recliners, medical cabinets, disinfectant trolleys using thick anti-bacterial Kydex film as well as medical beds.

We are adaptable and can cater for your every need. We have recently started supplying weighted furniture for psychiatric and mental health facilities. We also produce bespoke furniture such as pigeon hole / letterbox units, reception counters.

If you have a specific request, we will search and select a factory especially for you or you can simply choose products from our current range. We do not just leave it there though. We develop and nurture your project, helping solve all manner of challenges that may arise: developmental, financial, contractual as well as logistical.

We have established long-lasting, permanent relationships with over a dozen manufacturers. We always have your long term interests at heart concentrating on quality in the hope of winning your trust and repeat business. Whatever you may require, we will do our best to help you.

COMPANY BIO

Magicman are the UK's leading hard surface repair company, specialising in the indistinguishable restoration of virtually all solid surfaces both to the interior and exterior of the home, hotel, office, cruise ship or whatever building we have been appointed to restore.

We repair on site which means less disruption to you and eliminates the risk of ancillary damage that can occur when items are removed and replacements installed. Magicman's engineered repairs are superior because we source the best fillers and coatings from around the world. Our Research & Development department work hard to routinely deliver new and creative repair techniques.

We adapt to accommodate new architectural surfaces, finding solutions to seemingly impossible repair problems. Our products have been tried and tested over many years to match, as closely as possible, the intrinsic qualities of the substrate being restored (heat and impact resistance and flexibility for instance).

This process results in repairs that react in similar ways to the damaged items and therefore the repairs have longevity.

PRODUCT RANGE AND SERVICES

Magicman repair a wide range of hard surfaces with dents, chips, scratches, burns, holes, scuffs and cracks repaired daily by our fully employed technicians.

Magicman's mission is to restore and extend the lifespan of damaged items that would otherwise go to landfill, saving money for our customers and helping to protect the environment.

Every day thousands of damaged items are discarded and replaced, a decision that has an impact on the environment and ultimately affects us all. Sanitaryware, floors, doors, kitchen units, worktops, wood, uPVC, ceramic tiles, marble, laminates, composites, metal, glass and so much more can be restored with the minimum of fuss.

COMPANY BIO

MED e-care exists because medication management in care homes deserves better. Built by people who understand the pressures care teams face, their eMAR system brings together real-time medication tracking, pharmacy integration, stock management, and audit-ready reporting in one intuitive platform.

For care home managers and staff, that means fewer errors, greater confidence, and more time for the residents who need them. For owners and operators, it means remote oversight, clear compliance reporting, and the reassurance that every dose is accounted for.

MED e-care integrates seamlessly with the care planning and management systems providers already rely on, such as Person Centred Software and Nourish, and connects directly with leading PMR software including EMIS and Rx Web, creating a joined-up digital ecosystem from care plan to dispensary. No rip and replace, just smarter, safer medication management that works alongside the tools teams trust.

Their vision is a care sector where no resident is ever at risk from a preventable medication error, and every care team has what they need to make that happen.

As Managing Director Chris Pearson puts it: "Accuracy and safety are at the heart of what we do. Our eMAR system empowers care teams with the tools they need to deliver exceptional medication management, every single day."

Book a personalised demo: <https://share.hsforms.com/1poeWqi09TZGmiUZVxnVnAA4xrgf>

PRODUCT RANGE AND SERVICES

MED e-care's core product is its eMAR system, purpose-built for care homes to digitalise and streamline every aspect of medication management. Key features include real-time medication tracking, controlled drug management, PRN protocol support, stock auditing, and inspection-ready reporting.

Alongside eMAR, MED e-care offers digital care planning and care management tools, all integrated with leading PMR software including EMIS and Rx Web, and care planning platforms such as Person Centred Software and Nourish.

Implementation support, training, and ongoing customer success are included as standard.

NH Maintenance (NHM) is a specialist provider of medical equipment servicing, compliance, repairs, spare parts and asset management to the health and social care sector.

Working with care homes, private hospitals, hospices and specialist care providers across the UK, NHM helps organisations keep essential equipment safe, compliant and operational whilst reducing downtime and unnecessary replacement costs.

Our NHM 360 approach provides a structured framework for managing equipment across single and multi-site portfolios, including planned preventative maintenance (PPM), LOLER and PUWER compliance, repairs, asset audits, refurbishment, storage and redeployment services.

As an independent provider, NHM offers impartial advice focused on extending equipment life, improving value and supporting sustainable procurement decisions. Our nationwide engineering network is supported by specialist technical teams and innovative tools such as our WhatsApp Parts Finder service.

NHM's mission is simple: to help healthcare providers maximise equipment performance, maintain compliance, reduce costs and support the delivery of outstanding care.

PRODUCT RANGE AND SERVICES

NHM provides specialist servicing, compliance, repairs, spare parts and asset management for healthcare and social care providers.

We support profiling beds, pressure care equipment, hoists, slings, assisted baths, weighing scales, syringe drivers, suction units, specialist seating, wheelchairs and mobility equipment.

Services include Planned Preventative Maintenance (PPM), LOLER and PUWER inspections, repairs, parts supply, asset audits, equipment refurbishment, storage, redeployment, installation and lifecycle management.

Through our NHM 360 approach, we help providers improve compliance, reduce downtime, extend equipment life and control costs.

COMPANY BIO

Person Centred Software works with more than 8,400 care homes across the UK. Over 40,000 carers record care on our platform every day, generating 13 million care interactions in the process. For most residential care homes, our platform is simply part of how the day runs.

Our platform connects care recording, medication management, staffing, wellbeing, family engagement, and group-level analytics into a cohesive ecosystem. Care teams spend less time on administration and more time with residents. Group leaders get one reliable version of the truth across every home.

Today, PCS operates as a fully integrated digital care ecosystem. Our investment in AI is moving the platform beyond record-keeping into intelligent care, giving providers the foresight to act earlier, perform at their best, and evidence more.

PRODUCT RANGE AND SERVICES

Our portfolio covers the full operational picture of a care home group: Care planning, eMAR, staffing and dependency, care intelligence, resident wellbeing, and family engagement.

Together, they give care teams a straightforward way to record what they do, managers the real-time visibility to know what is happening across their homes, and group leaders the structured evidence to demonstrate care quality to regulators, commissioners, and boards. Our newest solution, IQ., built on approximately 18 billion care notes across roughly two-thirds of UK residential beds, adds a layer of intelligence via care home benchmarking that no internal reporting tool can replicate.

By unifying key care workflows into one cohesive system, PCS helps providers save time, strengthen compliance and ultimately give carers more time to focus on what matters most delivering high-quality, person-centred care.

JAY LEDGEWAY

MANAGING DIRECTOR

COMPANY BIO

Poplar Catering Products is dedicated to helping care homes across the UK create efficient, reliable kitchens and better dining experiences for their residents. We supply and install innovative catering and dining equipment designed specifically for the demands of care environments.

From cooking and food preparation to storage, serving, and food holding, our solutions help kitchens run smoothly while supporting teams to deliver consistently high standards of care and nutrition.

What sets Poplar apart is our focus on speed, simplicity, and service. We understand that downtime in a care home kitchen can have serious consequences, which is why we prioritise rapid quotations, fast delivery, and efficient removal and installation to minimise disruption.

Beyond supplying equipment, we also help modernise and streamline commercial kitchens, kitchenettes, and dining areas. Our team can support projects from design and planning through to completion, ensuring spaces are practical, compliant, and built for the realities of busy care settings.

At Poplar, our mission is simple: to make care home kitchens work better for the people who rely on them every day.

PRODUCT RANGE AND SERVICES

Kitchen appliances, tableware, dining furniture, kitchenette re model, commercial kitchen re model, food preparation tools, remove/recycle/install kitchen appliances, design service for new kitchenettes and kitchens, personalised range and streamlined ordering for care groups

COMPANY BIO

Purchasing Support Services (PSS) is a leading procurement and contract management consultancy with over 20 years of experience supporting the care sector. Combining extensive procurement expertise with innovative technology, PSS helps care providers reduce costs, improve operational efficiency and strengthen compliance. We support over 50,000 care beds across the UK and understand the operational and commercial challenges facing care providers, delivering practical solutions that create measurable value.

Andrew Throup is a highly experienced software professional with over 27 years of experience in software sales, development and business management, including senior roles with bakery technology leader Cybake.

Alongside his extensive commercial experience, Andrew specialises in designing and developing modern software solutions for the hospitality and care sectors. By combining agile development methodologies with advanced AI-powered coding and API integration technologies, he delivers highly connected, scalable applications in a fraction of the traditional development timeframe. His expertise has been instrumental in the creation of innovative platforms that improve operational efficiency, automate processes and provide organisations with greater visibility and control.

PRODUCT RANGE AND SERVICES

Care Contract & Compliance Management System

Developed in-house by care sector procurement specialists, our Care Contract & Compliance Management System helps care homes manage compliance, contracts and operational tasks through a single, easy-to-use platform.

The system automates key activities such as LOLA testing, maintenance schedules, task management and compliance tracking, providing complete visibility across an organisation. By reducing administration, improving accountability and ensuring critical activities are completed on time, the platform helps care providers save time, reduce costs and focus more resources on delivering outstanding care.

COMPANY BIO

Realise is a leading UK training provider with over 30 years' experience developing workforces through apprenticeships and adult learning. As part of AQA, we reinvest our surplus back into education, supporting individuals, employers, and the wider sector to grow.

In health and social care, our focus is simple: Grow your team. Grow the future.

We work in partnership with care providers across the UK to build confident, capable teams that deliver high-quality care. Our programmes are aligned to Skills for Care frameworks and support standards set by the Care Quality Commission, ensuring learning translates into real impact on the ground.

From entry-level roles through to leadership, we support progression at every stage. Our delivery is flexible and designed around the realities of care, with blended learning that fits around shifts and service demands.

Employers choose Realise because we make it easy to develop their workforce. Clear onboarding, low admin and strong learner support mean higher completion rates and better outcomes.

The result is a stronger, more resilient workforce. More confident staff. Better care.

PRODUCT RANGE AND SERVICES

Whether you are building a new team or developing experienced staff, our health and social care programmes support progression at every stage. Endorsed by Skills for Care and aligned to the Care Quality Commission and the care career pathway, our offer spans Level 2 to Level 5 apprenticeships and diplomas, with specialist pathways and short courses. With funding available, including free training options for eligible learners, we help you grow confident, capable teams that deliver high-quality care.

If your care setting was inspected tomorrow, would you feel confident – or concerned?

Resilience Health Solutions supports care homes, GP surgeries, schools and healthcare businesses to become safer, stronger and inspection-ready.

Led by an experienced Advanced Clinical Practitioner, HCPC-registered Paramedic and Infection Prevention & Control Lead, we provide practical consultancy and training that helps teams feel prepared, compliant and confident – not overwhelmed.

We specialise in:

- ✓ Infection Prevention & Control audits
- ✓ CQC readiness and improvement support
- ✓ Care home governance and compliance
- ✓ Mandatory and bespoke healthcare training
- ✓ BLS, Anaphylaxis and Medical Emergency training
- ✓ Policy, SOP and evidence folder support
- ✓ Friendly action plans that actually make sense

Whether you are preparing for inspection, recovering from a difficult report, strengthening your governance, or simply want reassurance that you are doing things properly – we help you identify the gaps, prioritise what matters and put clear improvements in place.

No jargon. No scare tactics. Just expert, supportive guidance that protects your service, your staff and the people in your care.

Don't wait for inspection pressure to reveal the gaps. Book Resilience Health Solutions now and feel confident before anyone walks through the door.

COMPANY BIO

Sapern HR was established in March 2022 by Philip Kirby who has extensive senior management experience in both the health and voluntary sectors. Sapern HR supports businesses focusing on providing quality HR support, staff training and development. We specialise in supporting small and medium sized business delivering health and care and have extensive experience operating in and with these sectors.

Our mission is to help businesses navigate the complexities of employment law – we know how difficult it can be to balance running your business alongside managing HR matters. Communicating with your workforce is vital to ensure a happy workplace and we can help you have the right policies in place to ensure seamless communication with your employees with a suite of policies and procedures that can help support your business.

If you're looking to restructure your business and don't know where to start, we can help. We work closely with you to understand the changes you would like to make and assist you in meeting your business goals. We offer a personable approach to HR and therefore are happy to assist with face-to-face meetings with staff together with offering support on individual problems you may be coming across or complex queries that are raised. We can take off the stress by producing correct letters and documentation; we provide draft templates to ensure that processes are managed, and that you are compliant with employment law while adopting best practice.

SOUNDfeelings - The gentle Power of Singing Bowls

- Less Dependent Care Home Residents.
- Care in Resonance.
- Relieved Staff.
- Singing Bowls in Daily Care.
- Training for Care Professionals.

Every day, care home managers look for ways to improve the quality of life for the residents while supporting a team that carries an enormous physical and emotional load.

What genuinely helps residents who cannot be reached by conventional care?

And what gives the staff a tool they can offer without exhausting themselves further?

We believe every care home should be able to offer its residents something that reaches them deeply, without placing additional burden on the people who care for them.

For Your Care Home

A meaningful addition to your care offering

Residents experience something genuinely new, and your home stands out as a place that goes beyond the standard of care expected.

Results your team can see from day one

Less dependent residents, easier personal care routines, and a measurable difference in the atmosphere of your home.

A tool that relieves your staff, not burdens them

No physical effort required. The vibrations do the work, which means your team gains something they can offer every day without exhaustion.

For Your Residents

A Treatment That Asks Nothing of Them

Deep relaxation through sound and vibration, without a single moment of discomfort during or after the session.

The Bowls Do the Work.

No physical contact with the therapist. No electrical devices. And more!

PRODUCT RANGE AND SERVICES

Special training in Singing Bowl Massage and sound bath for care home carer.

High therapeutic quality Peter Hess® Singing Bowls for your residents and also your employees/carer.

COMPANY BIO

Syncurio gives you the operational clarity to deliver quality care.

Manage staffing, finances, compliance and growth from a single, integrated system built for residential care homes.

Most care home operators are making decisions based on last month's numbers - or no numbers at all. Agency spend creeps in unnoticed. Payroll takes days. And the time that should go into running a good home goes into holding the admin together instead.

Syncurio gives you visibility of what every home is actually costing you – labour, agency, and resident billing – so you can act on it before it becomes a problem.

Operators using Syncurio save 12-13 hours a month on rostering alone, reduce agency spend by 30% on average, and close payroll in hours, not days. That's time and money that goes back into delivering quality care.

Temploper eRoster – Smarter Scheduling for Healthcare

Temploper eRoster is a modern, cloud-based rostering system built specifically for private healthcare providers such as care homes, hospitals, and multi-site services. Designed to reduce admin time, improve compliance, and give organisations full visibility of their staffing, eRoster streamlines every stage of shift planning – from creating rotas to tracking attendance and filling last-minute gaps.

- Fast, Intelligent Rota Creation - With Temploper eRoster, managers can build full rotas in just a few clicks.
- Real-Time, Mobile-First Visibility - Built with mobility in mind, Temploper eRoster allows both managers and staff to view rotas from any device, anywhere..
- Integrated Time & Attendance Tracking - Temploper eRoster includes built-in time and attendance features, allowing workers to clock in and out directly through the app.
- Compliance as Standard - Compliance is central in healthcare, and eRoster embeds it throughout the workflow.
- Leave Management & Shift Flexibility - Staff can request holiday or report sickness directly through the app, where managers can approve or decline with a single tap. Temploper eRoster also supports shift swapping, giving teams flexibility while keeping managers firmly in control.
- Cross-Site Visibility for Multi-Site Providers - Managers can switch between sites, pool staff across the organisation, and identify under- or over-staffed areas.
- Designed to Reduce Costs and Admin Time - By automating scheduling, tracking attendance, handling leave, and enabling internal staff to pick up more shifts, Temploper eRoster cuts down the administrative burden dramatically.
- A Bridge to Bank and Agency Staffing - One of Temploper's unique strengths is its integration with Temploper Core – the platform used to manage bank staff, overtime, and approved agency workers. When gaps appear in the rota, eRoster can automatically publish open shifts to internal staff first. If they remain unfilled, the system then makes them available to trusted agency partners. This ensures internal teams always get priority while still guaranteeing safe staffing levels. Because agency workers are fully compliance-checked within Temploper, managers can book them with confidence.

COMPANY BIO

We're a UK-based energy consultancy delivering smart, cost-effective solutions for businesses. We audit, design and implement tailored strategies to reduce energy spend, improve efficiency, and integrate renewable technologies across your business.

Frustrated by the slow adoption of proven money-saving technologies, we partner with green tech suppliers, funders and brokers to design and implement bespoke strategies that reduce overall energy spend while improving sustainability. Our approach is technology-agnostic, allowing us to recommend the most effective solutions for each client. We take a whole-site strategy, auditing existing energy supply and usage to identify opportunities for improvement, efficiency, and resilience. From generating renewable energy, such as solar PV, to integrating battery storage and optimisation systems, we help businesses take control of their energy in an increasingly volatile energy market.

We know businesses don't consistently get a competitive deal on their energy bills, so by simplifying which supplier to choose through our simple market comparison - we help them save time and money.

Since 2009 we have formed excellent partnerships with most of the UK's utility providers. We have also worked with organisations in every business sector to help revolutionise their approach towards utility management; consistently delivering exceptional savings and improved operational efficiency.

Wellell is a global leader in medical solutions for post-acute care and acute care, operating in more than 86 countries. Founded in 1990, we integrate pressure area care solutions, moving and handling, respiratory therapy, and digital healthcare services, to deliver improved clinical outcomes and digital well-being for patients, caregivers, and healthcare stakeholders.

Our innovations focus on improving the care delivery journey and experience, human-centred designs with big data analytics, and digital communication for more efficient healthcare delivery. We have over 100 team members collaborating on product research, design, development, management, manufacturing, and marketing at our headquarters, listening closely to market needs and customer feedback, prototyping and testing new and improved products and services, and supporting our global partners in delivering localised training.

Wellell support surfaces improve pressure injury prevention for post-acute and acute care patients by simplifying therapy procedures and pressure relief care delivery, improving patient outcomes and experience, workplace health, and healthcare resource allocation. Our patient handling equipment simplifies workflows and transportation efforts, reducing the risk of injury to care providers and patients during care delivery.

Let's work together to build trust and synergy between healthcare stakeholders and their patients, and help everyone live, grow, and enjoy life every day.
